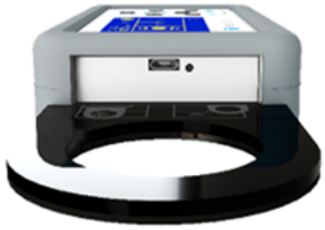
No: 3126 No: V1.9



TM-PROG RFID is a programming device used to read and addresses of lighting fittings that are compliant with TM-CB | DATA2 | DATA2 RADIO| DATA3 | DATA3 RADIO | DALI | DALI-2 systems.

» Programming is executed in a wireless mode that provides for operation without connecting lighting fittings to a power supply.
» The programming device has a built-in battery that offers long operating time, and the current consumption is shown on a display.
» The programming device has an ergonomic casing that protects the device against mechanical damage and prevents accidental slipping from the hand.
